

# Acceptable Usage Policy

Revision date: 2011-Jan-05

As a provider of web site hosting and other Internet-related services, Terawiz Consulting CC offers its customer (also known as "Subscribers") and their customers and users the means to acquire and disseminate a wealth of public, private, commercial and non-commercial information. Terawiz Consulting CC respects that the Internet provides a forum for free and open discussion and dissemination of information. However, when there are competing interests at issue, Terawiz Consulting CC reserves the right to take certain preventive or corrective actions. In order to protect these competing interests, Terawiz Consulting CC has developed an **Acceptable Use Policy** ("AUP"), which supplements and explains certain terms of each customer's respective service agreement, and is intended as a guide to the customer's rights and obligations when using Terawiz Consulting CC' services. This AUP will be revised from time to time.

One important aspect of the Internet is that no one party owns or controls it. This fact accounts for much of the Internet's openness and value, but it also places a high premium on the judgment and responsibility of those who use it, both in the information they acquire and in the information they disseminate to others. When subscribers obtain information through the Internet, they must keep in mind that Terawiz Consulting CC cannot monitor, verify, warrant or vouch for the accuracy and quality of the information they acquire. For this reason, the subscriber must exercise his or her best judgment in relying on information obtained from the Internet, and also should be aware that some material posted to the Internet may be sexually explicit or otherwise offensive. Because Terawiz Consulting CC cannot monitor or censor the Internet, and will not attempt to do so, Terawiz Consulting CC cannot accept any responsibility for injury to its subscribers resulting from inaccurate, unsuitable, offensive or illegal Internet communications.

When subscribers disseminate information from the Internet, they must keep in mind that Terawiz Consulting CC does not review, edit, censor or take responsibility for any information its subscribers may create. When users place information on the Internet, they have the same liability as other authors for copyright infringement, defamation and other harmful speech. Also, because the information created is carried over Terawiz Consulting CC' network and may reach a large number of people, including both subscribers and non-subscribers of Terawiz Consulting CC, subscribers' postings to the Internet may affect other subscribers and may affect Terawiz Consulting CC' goodwill, business, reputation or operations. For these reasons, subscribers violate Terawiz Consulting CC policy and the Service

Agreement when they, their customers, affiliates or subsidiaries engage in the following prohibited activities:

**Spamming:**

Sending unsolicited bulk and/or commercial information over the Internet. It is not only harmful because of its negative impact on consumer attitudes toward Terawiz Consulting CC, but also because it can overload Terawiz Consulting CC' network and disrupt service to Terawiz Consulting CC' subscribers. Also, maintaining an open SMTP relay is prohibited. When a complaint is received, Terawiz Consulting CC will investigate and shutdown the account that is SPAMing. A \$250 charge for violating this policy will be charged to the person initiating the SPAM. Furthermore Terawiz Consulting CC reserves the right to prosecute for this violation. A \$1.00 charge will be assessed PER EMAIL sent should Terawiz Consulting CC choose to pursue and prosecute.

**Audio/Video Streaming:**

Audio/Video Streaming is not hosting friendly. As such, Terawiz Consulting CC does not allow any streaming of audio or video content. Offending accounts will be suspended without noticed or terminated.

**Adult-Oriented Content:**

Terawiz Consulting CC does not allow adult content and will suspend/terminate any offending account.

**Large File Policy:**

Terawiz Consulting CC is not for file hosting and distribution - as such, customers may not host any files larger than 50MB in size that are observed to be available for the sole purpose of download. Such files include but are not limited to .ISO, audio/video files, .EXE files. If you are unsure whether your file is against this policy, please e-mail [webadmin@terawiz.com](mailto:webadmin@terawiz.com).

**Obscene Speech or Materials:**

Using Terawiz Consulting CC' network to advertise, transmit, store, post, display, or otherwise make available child pornography or obscene speech or material is prohibited. Terawiz Consulting CC is required by law to notify law enforcement agencies when it becomes aware of the presence of child pornography on or being transmitted through its network.

**Defamatory or Abusive Language:**

Using Terawiz Consulting CC' network as a means to transmit or post negative, defamatory, harassing, abusive or threatening language.

**Forging of Headers:**

Forging or misrepresenting message headers, whether in whole or in part, to mask the originator of the message.

**Illegal or Unauthorized Access to Other Computers or Networks:**

Accessing, illegally or without authorization, computers, accounts or networks belonging to another party, or attempting to penetrate security measures of another individual's system (often known as "hacking"). Also, any activity that may be used as a precursor to an attempted system penetration (i.e., port scan, stealth scan or other information-gathering activity).

**Distribution of Internet Viruses, Worms, Trojan Horses or Other Destructive Activities:**

Distributing information regarding the creation of and sending Internet viruses, worms, Trojan horses, pinging, flooding, mail bombing or denial of service attacks. Also, activities that disrupt the use of or interfere with the ability of others to effectively use the network or any connected network, system, service or equipment.

**Facilitation a Violation of this AUP:**

Advertising, transmitting or otherwise making available any software, program, product or service that is designed to violate this AUP, which includes the facilitation of the means to spam, initiation of pinging, flooding, mail bombing, denial of service attacks and piracy of software.

**Export Control Violations:**

Exporting encryption software over the Internet or otherwise, to points outside the United States.

**Usenet Groups:**

Terawiz Consulting CC reserves the right not to accept postings from newsgroups where we have actual knowledge that the content of the newsgroup violates the AUP.

**Other Illegal Activities:**

Engaging in activities that are determined to be illegal, including, but not limited to, advertising, transmitting or otherwise making available ponzi schemes, pyramid schemes, fraudulently charging credit cards and pirating software.

**Other Activities:**

Engaging in activities, whether lawful or unlawful, that Terawiz Consulting CC determines to be harmful to its subscribers, operations, reputation, goodwill or customer relations.

As we have pointed out, the responsibility for avoiding harmful activities just described rests primarily with the subscriber. Terawiz Consulting CC will not, as an ordinary practice, monitor the communications of its subscribers to ensure that they comply with Terawiz Consulting CC's policy or applicable law. However, when Terawiz Consulting CC becomes aware of harmful activities, it may take any action to stop the harmful activity, including, but not limited to, removal of information, shutting down a web site, implementing screening software designed to block offending transmissions, denying access to the Internet, or any other action deemed appropriate by Terawiz Consulting CC.

Terawiz Consulting CC is also aware that many of its subscribers are themselves providers of Internet services, and that information reaching Terawiz Consulting CC's facilities from those subscribers may have originated from a customer of the subscriber or from another third party. Terawiz Consulting CC does not require its subscribers who offer Internet services to monitor or censor transmissions or web sites created by customers of its subscribers. Terawiz Consulting CC reserves the right to directly take action against a customer of its subscribers. Also, Terawiz Consulting CC may take action against the Terawiz Consulting CC subscriber because of activities of a customer of the subscriber, even though the action may affect other customers of the subscriber. Similarly, Terawiz Consulting CC anticipates that subscribers who offer Internet services will cooperate with Terawiz Consulting CC in any corrective or preventive action that Terawiz Consulting CC deems necessary. Failure to cooperate with such corrective or preventive measures is a violation of Terawiz Consulting CC policy.

Terawiz Consulting CC will not intentionally monitor private electronic mail messages sent or received by its subscribers, unless required to do so by law, governmental authority or when public safety is at stake. Terawiz Consulting CC may, however, monitor its service electronically to determine that its facilities are operating satisfactorily. Also, Terawiz Consulting CC may disclose information, including, but not limited to, information concerning a subscriber, a transmission made using our network, or a web site, in order to comply with a court order, subpoena, summons, discovery request, warrant, statute, regulation or governmental request. Terawiz Consulting CC assumes no obligation to inform the subscriber that subscriber information has been provided and, in some cases, may be prohibited by law from giving such notice. Finally, Terawiz Consulting CC may disclose subscriber information or information transmitted over its network where necessary to protect Terawiz Consulting CC and others from harm, or where such disclosure is necessary to the

proper operation of the system. However, Terawiz Consulting CC will never sell information to other services or outside companies.

Terawiz Consulting CC expects that its subscribers who provide Internet services to others will comply fully with all applicable laws concerning the privacy of online communications. A subscriber's failure to comply with those laws will violate Terawiz Consulting CC policy. Finally, Terawiz Consulting CC wishes to emphasize that, in signing the Service Agreement, subscribers indemnify Terawiz Consulting CC for any violation of the Service Agreement, law or Terawiz Consulting CC policy resulting in loss to Terawiz Consulting CC or the bringing of any claim against Terawiz Consulting CC by any third party. This means that, if Terawiz Consulting CC is sued because of a subscriber's or customer of a subscriber's activity, the subscriber will be responsible for payment of any damages awarded against Terawiz Consulting CC, plus costs and reasonable attorney's fees.

We hope this AUP is helpful in clarifying the obligations of Internet users, including Terawiz Consulting CC and its subscribers, as responsible members of the Internet. Any complaints about a subscriber's violation of this AUP should be sent to [webadmin@terawiz.com](mailto:webadmin@terawiz.com).
